

## **Civil Engineering Technician**

The **Village of Little Chute, WI** has an opening for a **Civil Engineering Technician** (salary range \$55,400 - \$69,000 annually based on capabilities). The Village of Little Chute is conveniently located in the heart of the Fox River Valley with a population of approximately 11,000 residents.

Engineering Technician Professionals work under the general supervision of the Project Engineer. This position requires drafting capabilities to assist with plan development, review of technical specifications and conduct inspections of public construction projects including transportation, storm water, water, and wastewater systems.

This position is also required to manage construction project sites by interacting with property owners, developers and contractors, explain technical requirements or discrepancies, and prepare field reports documenting construction activities.

Graduation from a standard high school or vocational school, or possession of a valid certificate of equivalency from the State or Armed Forces is required. An Associate's Degree in Civil Engineering Technology is preferred or equivalent knowledge with at least 5 years of experience with a municipality or engineering consulting firm is desired. Supplemental education in math, drafting and surveying is highly recommended. Valid Wisconsin State driver's license with a driving record free from serious or frequent violations.

For a complete job description, qualifications, and how to apply, visit [www.littlechutewi.org](http://www.littlechutewi.org) and choose Employment Opportunities (bottom right hand corner of homepage).

Deadline for application submission is: Open until position is filled. **The first review of applications will begin on February 19, 2018.** The Village of Little Chute is an Equal Opportunity Employer.
