

## CIVIL ENGINEER – STORMWATER UTILITY City of Oshkosh, WI

**Location:** Oshkosh, WI

**Deadline:** This posting is open through midnight on 7/10/2018.

**Salary:** This position is a salary, exempt position, with a full benefits package. Compensation starts at \$2,220.69 biweekly.

The City of Oshkosh, Wisconsin is searching for a full-time Civil Engineer – Stormwater Utility. This is an entry level position performing moderately complex, professional work in civil engineering. Work involves responsibility for the performance of civil engineering work in connection with public works and public utility projects and the review and approval of private storm water management plans. Work will include, but is not limited to the design and preparation of plans and specifications, assistance in the preparation of system engineering plans and reports, assisting with the design and/or review of storm water drainage plans and storm water issues, assist with the management of the storm water utility, database management, project management or inspection of construction projects. Assignments are received orally or in writing and afford some opportunity for independent judgment in planning work or in making technical decisions. Works under general supervision of an experienced engineer, most of the work is according to an established work routine, however, new ideas and methods are encouraged and may be learned and applied to the work of the Civil Engineer. This position works in cooperation with staff, and may serve as a lead person over various staff.

Qualified candidates will possess a Bachelor's Degree in Civil Engineering from an accredited engineering school. This position also requires the candidate to possess and maintain a valid Wisconsin Driver's License.

**Application Procedure:** Please visit
